SUMMARY

My name is Avinash, 20, still a student, looking for a part time job I can do while still at school, ideally working remotely. I'm skilled with C ,python,Java, html,css,javascript and I am trying to learn other programming languages, step by step. Have three brothers, all of them study at a med school. I try to get the most out of my time at the college, and have some edge once I graduate, which is the primary reason why I seek a part time job with you.
